Subject: RE: Crestone Peak Access Road

Dear Dave – EPA also received a call from the law firm representing Crestone Peak this morning with the same questions noted by Curt below, and Amelia and I will be talking to them tomorrow. I anticipate being able to discuss the technical aspects of the drum removal, but we need you and your client to address any legal issues regarding the access road and who is allowed to use it.

Thanks!

Subject: Crestone Peak Access Road

Dave,

We received a call from Crestone Peak this morning. They expressed worker safety concerns and asked whether the removal activities would utilize their access road.

Figure 2 from the AAMP shows that you are proposing to use approx. 800 feet of Crestone's access road; whereas Figure 3 from the same plan shows that you may not be planning to use any of it. Please clarify. Crestone is planning to attend tonight's meeting.

Thanks,
Curt

I'm checking Curt, but I'm thinking Figure 2 is what was planned.
